

Nº 5 1 1 0 7

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Map filed AUG 4 1980 under 41973

Nevada (89557), hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground
Name of stream, lake, spring, underground or other source
2. The amount of water applied for is .25 second-feet
One second-foot equals 448.83 gals. per min.
- (a) If stored in reservoir give number of acre-feet
3. The water to be used for Quasi-Municipal (University of Nevada Fire Training Facility)
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:
- (a) Irrigation, state number of acres to be irrigated:
- (b) Stockwater, state number and kinds of animals to be watered:
- (c) Other use (describe fully under "No. 12. Remarks")
- (d) Power:
- (1) Horsepower developed
- (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point: SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 29, T21N, R.19E, MDM or at a point from which the Southeast corner of said
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
Section 29 bears, S 50° 21' 21" E a distance of 2,035.40
6. Place of use Portion of SE $\frac{1}{4}$ Section 29, T21N, R19E, MDM
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
7. Use will be begin about January 1 and end about December 31, of each year.
Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drill well, install pump and motor,
State manner in which water is to be diverted, i.e. diversion structure, ditches and storage tanks and holding ponds.
flumes, drilled well with pump and motor, etc.
9. Estimated cost of works \$25,000

10. Estimated time required to construct works Two Years
 If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use Five Years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. See Permit 41973 for Map. This application is being made in the public interest to expand the training field at the Fire Protection Training Academy. The facility trains fire fighters from all around the country. Because of the need and success of the program, an additional 5 million gallons annually is needed for the new training grounds. Runoff water from fire fighting is captured in EPA approved holding ponds and reused. This application is for existing well (41973) and the combined withdrawal will be 7 million gallons annually.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water place to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal, and local agencies.

(CONTINUED ON PAGE 2)
 The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second, but not to exceed 5 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before August 4, 1989

Proof of completion of work shall be filed before September 4, 1989

Application of water to beneficial use shall be filed on or before August 4, 1990

Proof of the application of water to beneficial use shall be filed on or before September 4, 1990

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed FEB 28 1990 IN TESTIMONY WHEREOF, I PETER G. MORROS,
 State Engineer of Nevada, have hereunto set my hand and the seal of

Proof of beneficial use filed OCT -7 1991

my office, this 4th day of April

218 (Rev.)

State Engineer

ABANDONED
RULING NO. 5352
DATE 5-5-04

(PERMIT TERMS CONTINUED)

The total combined duty of water under Permits 41973 and 51107 shall not exceed 7 million gallons annually.

The total diversion rate of permits 41973 and 51107 shall not exceed 0.25 cubic feet per second.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

This permit is issued for fire training purposes only and with the understanding that every attempt shall be made to minimize the use of water. The State Engineer retains the right to reduce the amount granted under this permit if he feels conditions in this groundwater basin warrant a reduction.

The water metering readings for water pumped from this well shall be submitted to the Division of Water Resources on a monthly basis.
